

\$25,000 Plant With 8,900 Feet Floor Space

The Advocate gives to the public all the news fresh from the bat and this item, of the above caption, to which we have given space before, and which related to what we thought was to be a small plant, becomes obsolete in that the plant, instead of being diminutive, has grown to a value of \$25,000 and a floor space of 8,900 square feet.

The building is of brick and concrete and is absolutely fireproof. The refrigerating, pickling, cooling, repository, salesroom are strictly modern, so constructed that the one is distinct from the other, with connection by way of tracks and a system of pulleys. Stock enters the slaughter house by way of a narrow entrance from Main street into a concrete department, strictly sanitary, where they are slaughtered and made ready for the cooling department. In this room the flesh remains until all animal heat is out, and then passes either into the pickling room or storage room at a dry temperature stage, where it can be kept in a perfect state of preservation for indefinite period. All of the rooms where meat is handled is provided with fresh hydrant and storage water, so that every utensil used in preparing meats for the market is sterilized and kept sanitary. Another large room is held at the standard refrigerator temperature and space will be sold to dealers for their own uses. The top floors will be fitted up for a general business and private office and storage rooms. This plant is to be of sufficient space to care for fruits, vegetables, poultry, eggs, etc., on a commercial basis.

E. T. Hon has the supervision of the plant and is making it strictly up-to-date. Before breaking ground he took training in plants of this kind in the larger cities and where they have noted improvements he has perfected same in the Hon plant of this city.

The leading brand which will be copyrighted is Blue Grass Kentucky Beauty. Fresh meats are not only sold from here, but are to be cured by Mr. Ed Hon's private process, and as the name indicates, is not only beautiful, but of a palatable flavor as well. This week this company will begin to supply the trade, and it will be from the first grades of the highest class of stock. We inquired of Mr. Hon the size of his payroll and he answered we are distributing the rise of three hundred dollars weekly now and when we are running full we expect it to be several times this amount. One thing which disturbed the mind of Mr. Hon

Tobacco Marketing Concern Certain

Completion of the organization of a co-operative marketing association of growers of Burley tobacco was considered at a meeting in Louisville yesterday, attended by members of the executive committee named by Robert W. Bingham and Walter E. Hughes, who will manage the campaign.

This action follows the announcement of a definite campaign at a meeting of farmers and growers at Paris Saturday night when the support of Kentucky and the American Farm Bureau Federation was assured.

Ten of the principal Burley counties of the state are ready to sign up 85 or 90 per cent of their acreage under the Sapiro plan, according to Ralph Barker, Carrollton, member of the executive committee. Included in this number are Bourbon, Carroll, Trimble and adjoining counties. Four counties in Indiana also have signified their willingness to sign up.

Tentative plans already announced call for the appointment of an organization chairman in each of the counties where there is no existing body to elect a man to office. He will choose precinct chairmen to aid in carrying details of the marketing plan to individual growers. These will distribute copies of the tobacco conference and of the contract to be signed by those entering the co-operative association.

CHILD DIES

Ollie French Toy, aged eleven years, bright little daughter of Arch Toy, died Monday night of lockjaw at her father's home on the T. J. Bigstaff farm near this city. The arrangements for the funeral have not yet been made but services will likely take place at the family residence tomorrow.

Hey! Boys! Girls!—Want a pony? Then get busy in the big prize campaign.

was what disposition could be made of the offal. The question has been solved by Mr. A. S. Hart, who at his own expense, provides an out-of-town place, and this will be used until a fertilizing plant can be installed.

This plant will be worth much, not only to the farmer that produces, but to the merchant who will see the benefits of an increased payroll coming over their counters. Our influence and material aid should be given to this enterprise of mutual benefits. To the Hon Meat Co., the owners of this modern plant, we extend congratulations.

\$1500 In Valuable Prizes Offered Free For Spare Time Efforts

By The Advocate in a Mammoth Profit-sharing Circulation Campaign. Open to all White People of Good Character. Send in Your Nomination Today. Campaign Starts Next Week

The Advocate today announces a mammoth profit-sharing subscription-building campaign in which everybody residing in this section of the state is invited to take part.

In this great campaign, in exchange for spare time efforts, \$1,500 in costly premiums, including a Ford Sedan, Vacation trips and many other prizes are offered free to the popular and energetic people of this section who become active in the big race.

Probably no other paper in this section has ever made such a liberal proposition to its readers. The prizes, which are strictly high class, are all exceedingly desirable and worthy of the consideration and effort of every reader. It will be noticed at the outset that The Advocate's big family of readers will decide who are to receive these rich prizes, as each subscriber will have the privilege of voting by coupons published in the paper and by special subscription ballots which are given free upon payment of new subscriptions and renewals. It should also be noticed that it does not cost the subscriber anything extra to vote and it costs the contestant nothing to enter or try for the prizes. The prizes will be awarded in accordance with the result of the balloting and every subscriber is invited to choose a favorite candidate and assist him or her to win one of the valuable prizes.

One particularly good feature of this campaign is that there will be NO LOSERS. Every candidate gets something for his or her efforts. These rich awards are offered to make it worth while for any man, woman, boy or girl to spend a little of their spare time soliciting subscriptions and renewals among their friends and neighbors, and those who are not fortunate enough to win one of the regular premiums, but remain active throughout the campaign, will be paid a cash commission of 10 per

cent of the total amount of subscription money which he or she may turn in. Under these liberal arrangements there is no need for anyone to hesitate about entering the big race for every candidate is sure to be well repaid for their efforts.

Owing to the fact that it is impossible to get the receipt books and other supplies ready for the use of the candidates this week the big campaign will not be commenced until next week. However, nominations are now in order and it is a good idea to send in your nomination at once, so that the supplies may be sent as soon as they are ready.

The campaign is open to all white people of good character—men, women, boys or girls. It costs nothing to enter or try for any of the prizes. Simply clip, fill in the nomination blank found in this issue with your name or that of a friend and bring or mail to the Campaign Manager, care Advocate, Mt. Sterling, Ky. Supplies and full information will then be sent the prospective candidate.

How the prizes will be awarded, how votes are secured and full information regarding this big enterprise is given in the double page announcement in this issue. Read it over carefully and then send in your nomination. Remember, the first nominating ballot for each candidate counts 1,000 Free Votes to start.

It is often said that Dame Fortune knocks at every person's door but once, and this may be your opportunity. Will you take advantage of it while it is within your grasp? If so, send in your nomination at once, or enter the name of some friend or friends whom you think would like to try for the prizes. We do not divulge the names of those making nominations and by nominating your friends you simply give them an opportunity to try for the prizes if they so desire.

The Strollers in Play Here Friday

The Strollers, a dramatic organization of players from the University of Kentucky, presented their annual play, "The Admirable Crichton," at the Tabb Theatre Friday night to a large and appreciative audience. Miss Katherine Conroy, a Mt. Sterling girl, had one of the leading roles, and scored a decided hit with her audience here as well as in other cities, where the play has been given. The cast was most excellent and all the members showed real talent and ability. The Strollers were the recipients of much social attention while in our city, the History Club entertaining for them at the club rooms, with a tea which was followed by a dance at which a number of the men of the younger set were hosts. After the performance The Strollers were entertained by Mr. and Mrs. Dan J. Prewitt and J. Burton Prewitt with a buffet supper at their country home.

RECITAL

The pupils of Miss Minnie Graves will give a recital Friday evening at 7:30 o'clock at the Baptist church. The public is cordially invited to attend.

A Ford Sedan, valued at \$875.00, to be purchased from Strother Motors Co., is offered free in the big prize race.

Mother's Day Next Sunday May 8th

Next Sunday is Mother's Day and will be celebrated the land over by all those who realize the greatness and sacredness of Mother's love, the day when we will wear a bright flower for Mother, living, a white flower for Mother's memory.

Mother, who with tender loving hand guided your uncertain infant footsteps, who with gentle soothing caress dispelled your childish fears, who with wise counsel and advice marked the pitfalls you were to meet in after life, who with true vision, supplied you with the high ideals for right living. To fittingly express your unchanging love for Mother, remember her with flowers on Mother's Day.

ANOTHER BUILDING FOR MOUNT STERLING

Judge H. Clay McKee has taken on the building spirit again and besides the completion of the third story to his residence on South Bank street, now in progress, he has decided to connect his two buildings on South Bank street by erecting a three-story apartment and business block with a frontage of sixty-six feet.

Lacy hats in white and light colors, suitable for wear with your organdie frocks. We have them in all styles. Miss Bettie M. Roberts.

Go-to-Sunday School Day Largely Attended

Sunday, National Go-to-Sunday-School Day, was well attended in this city and possibly the largest number ever recorded attended the Sunday schools of the various churches of the city, where special programs had been arranged. At the Christian church there were present 686, next to the largest number ever in attendance, 687 having attended on one previous occasion. Sunday was the beginning of the eighth year for Rev. Clyde Darsie as pastor of this denomination and as an appreciation of the valuable service he has rendered he was presented with an angel food cake containing eight candles and under each candle was a twenty-dollar gold piece. In addition he was presented with a country ham and other valuable tokens of esteem. The presentation speech was gracefully and manfully made by Master Burns Ratliff and was touchingly responded to by Rev. Darsie.

The Methodist church had the second largest attendance of the local churches, there being present 406.

At the Presbyterian church there were present 219, the largest attendance in the history of this Sunday school.

The Baptist church only had present 158, one of the smallest gatherings that ever attended a similar occasion at this church.

The total attendance for the four churches was 1,469, the largest number that ever attended Sunday school in this city.

City Hi Track Team Wins Second Honors

The City High track team, composed of Davis, Coons, Stamper, Benton and Kirk won second honors in the inter-high school track meet, held at Paris last Friday afternoon. The events won by the local boys were as follows: Davis, first honors, 100-
yd dash, Time, 11 seconds.

Davis, first honors, 50-yd dash. Time, 6 seconds.

Coons first honors, high jump. Distance, 5 feet 2 inches.

The relay team, composed of Benton, Coons, Kirk and Davis, won the relay race in 1 minute and five seconds.

Three medals were won by Davis, 2 by Coons, 2 by Benton and 1 by Kirk.

LEG AMPUTATED

Henry Botts, well known and highly respected colored citizen of this city and former councilman from the Third Ward, underwent an operation at a Lexington hospital Friday, his leg being amputated above the knee. His friends will be glad to know that he is doing well.

Local Men Considering Buying Airplane

Lieutenant Jesse Creech and Col. James Maret, General manager and chief pilot and secretary respectively of the Lexington Aviation Company, of Lexington, were in Mt. Sterling yesterday assisting some of the local "air friends" in the selection of a landing field and in consultation regarding a plane which a company of local men now contemplate purchasing within a short while. The local company, made up of some six or eight of our leading business men, have about decided to purchase a plane the same as the Lexington Aviation Company, that they may be able to render one another assistance in the way of extra parts, etc.

Lieutenant Creech served in the U. S. Aviation Corps during the war, first attached to the British Royal Flying Corps, and then to the 148th American Squadron. He fought at Dunkirk, Amiens, Kimmel Hill, Arras, Cambrai, St. Quentin, etc. At the close of the war he had been officially credited with seven enemy planes, cited in orders by General Pershing, and awarded the British Distinguished Flying Cross, which medal was presented him personally by the Prince of Wales when he was in Washington in 1919 on his tour around the world.

The Lexington Aviation Company will instruct pupils in the art of flying and general up-keep of airplanes, carry passengers locally and to distant points, engage in advertising aerial photography, etc. The Mt. Sterling company is practically the same sort of work, without the schooling features.

Aids to Grace & Beauty

The Right Mental Attitude

This may strike some of my readers as a rather strange adjunct to beauty, and yet there is nothing more true than that the mind to a large extent fashions and controls the body.

We all know how grief defaces even the most beautiful of countenances, wipes out all its freshness and loveliness, distorts even the individual features. There are other emotions which leave their marks just as surely. For instance a peevish disposition etches fine lines of discontent and drags down the corners of the mouth, an envious one destroys all the beauty of the eyes, and, by continual narrowing of the lids, gives them a look of sneaking and malicious observation. A lack of will power and a cowardly way of looking at life gives one a feeble and often a retreating chin, from the half open undecided way the mouth is held.

I have known a jealous woman to become so bilious through allowing

her unbridled emotions to upset her that her complexion became yellowed and she lost all her color.

A pleased state of mind manifests itself by a sparkling eye with a raised tendency of the cheeks and the upper lips. There is no strain on the heart through worry or anger and therefore the circulation is good, giving one a healthy attractive color.

Then another thing, allowing one's self to be in a continual turmoil and upheaval causes indigestion which dulls the eyes, makes the skin flabby and ruins all freshness and beauty.

The state of mind also influences the health and sometimes causes the victim to fancy she has the beginnings of disease. In some cases of this sort when conditions have changed for these people and they have ceased to worry, their whole health has improved and all their distressing symptoms have vanished, leaving them in perfect well being.

Some people, particularly women, render themselves subject to disease by forming mental pictures of its every picture, instead of guarding against it by changing their mental attitudes.

There are well authenticated cases where people have contracted consumption through entertaining the conviction that they would die of this sickness because their parents did. Persons who have a hereditary tendency toward certain diseases should avoid all thought of these and banish even the suggestion of them and live above the health mark. It is when one's health drops below par that the microbes of disease get their hold.

The greatest cure for melancholy is hard work—and the greatest cure for boredom is a hobby of an interesting nature. People who do creative work never have the time to be bored. A life occupation or interesting line of business has been known to restore youthfulness and beauty to many women. In fact, to my mind, the homeliest and least attractive women are those grown fat and flabby, without an expression on their dull faces, from living an existence of too much idleness and too little effort. Anything which taxes the brain makes one think and improves one's self mentally, also adds

energy and life to the expression. It even improves the lustre of the eye and the texture of the skin.

Hope also has its effect upon the appearance and the health. As long as any human being possesses this there is a certain vivacity and energy—and working toward the attainment of a desire has been known to keep people alive even under the most adverse circumstances.

Quite a few great men have been condemned by the doctors and expected to die and yet because they wished to pay off debts or because others were dependent on them or, because they wished to consummate some great desire they have cheated the doctors and lived far beyond their allotted time.

Sir Walter Scott was one of these. He was fifty-five years old, suffering from a serious disease and deeply in debt. He made up his mind to live and to pay off his debt and he did both and managed to enjoy doing it as well.

There is really no unhappy woman except the one who has no object in life, who spends her time bewailing her lot and envying others. She ruins her beauty as well by the etching into her face of the lines of malice of stupidity and of discontent. These characteristics are not only ugly ones, but they are producers of ugliness as well.

Kentucky Farm Notes From Here and There

Farm women in the vicinity of Parksville, Boyle county, have organized themselves into a home demonstration club in co-operation with Mrs. Jennie C. Grubbs, home demonstration agent in that county.

J. W. Baker, a Clay county farmer, is planning to follow up-to-date methods of fruit production, according to a report of County Agent L. L. Clark. Mr. Baker has already laid out the orchard with the help of Mr. Clark and will plant 100 trees of choice variety.

Four farmers of Boyd county are co-operating with County Agent L. M. Amburgey in conducting demonstrations on different projects. J. M. Voss will conduct a demonstration in alfalfa growing, Rosh Canfield will use sweet clover and John F. Hubbard will use sudan grass as his project. A. C. McDaniel will conduct a demonstration on pruning and spraying in his orchard, which has been neglected until the present time.

Ten registered Shorthorn calves and eight Hereford ones were recently distributed by County Agent Leland Bunch to the beef calf club members in that county. A local bank furnished the money for the purchase of the calves, which were bought in Caldwell and Union counties for an average of 125 a piece.

Hart county now has a strawberry growers' association with eighty acres of the crop represented among its members, according to a report from County Agent J. S. Pullen.

W. H. Newell, a Mason county farmer, has reported a large production to County Agent George Kirk from two of the Holstein cows in his herd as a result of his first attempt to keep a record on his cows. Pauline St. Pontiac, a 26-months old heifer, produced 293 lbs of milk and 13 pounds of butter in seven days, while another cow produced 545 pounds of milk and 23 pounds of butter fat in the same number of days.

We could never understand why a good mystery or adventure story has to have a mushy love affair woven into it to pad it out.

Lambs on Good Pasture Gain Fast

In order that lambs may gain as rapidly as possible and reach a marketable weight at an early age it is necessary that they be provided with some form of supplementary pasture in addition to the blue grass pasture, according to livestock specialists. Such pastures are especially necessary during the hot summer months when blue grass pastures are parched and dried and furnish neither succulence or nourishment. Rape, cowpeas, soybeans, oats, sorghum and sudan grass are all good crops to plant for furnishing these supplementary pastures.

Dwarf Essex Rape is one of the best that can be used to advantage during the summer months if planted in April, according to Prof. L. J. Horlacher, of the Animal Husbandry Department of the College of Agriculture. Best results are obtained when six to eight pounds per acre are sown broadcast and lightly harrowed into the soil. It is best not to begin pasturing until the plants are eight to ten inches high, as more feed is furnished if a large amount of leaf surface is allowed to develop. Bloating from the rape may

be prevented by sowing one-half a bushel of oats with it per acre. A small amount of mustard seed sown with the rape will also prevent the bloating.

Cowpeas may be sown from May 15 to June 15 and soybeans from May 1 to July 1. Sorghum and sudan grass that are to be used for supplementary pastures may be sown in May or early June. Complete information concerning supplementary pastures for sheep may be obtained by writing the Experiment Station, Lexington.

Slatted Bottom Coop To Break Up Setters

Prevent the broody hen from remaining on the nest over night and get her into a slatted-bottom coop as soon as possible if she is to be broken up quickly and returned to the flock as an egg-layer, is the advice of poultry specialists from the State College of Agriculture, Lexington, to farmers who wish to discourage broodiness on the part of their hens at this time of the year. The hens return to laying may be hastened by giving her a full feed of

grain and mash along with plenty of water during the time that she is in the broody coop.

A simple broody coop may be made by hanging a shipping crate, bottom-side up, under a tree and placing roofing paper over it for a covering. If taken from the nest promptly, placed in such a coop and given a full feed of grain, mash and water the average hen should return to laying within a week.

While dynamite may do a quicker job, a family with a number of boys can wreck a house more completely and with attention to detail.

Child Training at Home

"Why, Alston," said his mother, "I do believe that you are teaching your parrot to swear!"

"No, I'm not, mother," Alston replied, "I'm just telling it what it mustn't say."

And so do many movies! They try to teach what not to do, instead of presenting stories of decent, wholesome living, with its thrills and its laughter and vigor.

Negative teaching does harm, rather than good. Positive stories, which entertain, amuse and educate, are becoming the much sought-out movie of today.

Not long ago, a child of seven was permitted to see a carefully prepared photoplay of a very fond mother whose craving for a son who should have the soul of music was at last realized. One of her children showed an intense longing for a violin. With a delicacy and finesse rarely found in motion pictures, the struggle and final triumph of this musician were portrayed and a desire to be something other than just commonplace was the deep impression made upon the audience. This impression upon the child of seven took definite shape in an intense desire for a violin too—so great, that at last his parents were persuaded to purchase one for him. The chief ambition of the little fellow is to learn to play, and the violin when it is not in use, is being carefully guarded, wrapped tenderly and placed upon a high shelf. He will probably become a musician, but if he doesn't, he is better and finer for having experienced that longing to be better than his environment.

It is necessary for thinking people to exert every energy to turn this potent medium of entertainment, amusement and education into chan-

nels for good.

Advance information on worth while films in the form of current weekly lists, coming into the home each week, assists parents in their selection of motion picture recreation for themselves and their children. The lists of films should be selected by persons having no financial connection with the motion picture industry, who have a wide knowledge of psychology and, definite experience in social work.

In one of our largest cities the school board has contracted for specially prepared weekly lists of endorsed films for every principal in the city. The school principal, in turn, publishes the lists in school papers and bulletins, so that many school children in that city have the opportunity of taking home each week the list of endorsed films soon to be played in nearby theatres. The scheme gives the family the power of selection. If this service were extended to all school boards in the country the demand for this type of film would be almost overwhelming. There is no doubt that producers would then turn their attention to the production of wholesome films because of their increased popularity and consequent increased profit.

The movies are worthy of our attention. It is possible to reconstruct them so that they will be an aid to civilization rather than a menace.

The American public is urged to seek out and support by its patronage, wholesome motion pictures, as many of them are being shown in the theatres of the country.

Trouble isn't always on the rampage; he, too, has to rest up sometimes in order to get a fresh start, and it isn't often that he troubles people who don't begin with him first.

April Good Time to Sow Sweet Clover

Excellent results may be obtained by seeding sweet clover in April and May if a good seed bed is prepared, according to Circular No. 60, published by the State College of Agriculture at Lexington. After the soil has been well pulverized and firmed down as hard as possible with a roller the seed may be sown with a clover drill or broadcasted and covered with a harrow and drag. Seeding in the spring is most successful when done under good moisture conditions. In case of dry weather immediately after seeding the ground may be rolled with a corrugated roller or culti-packer.

Arsenate of Lead Will Kill Tobacco Cutworms

Cutworms sometimes get into tobacco beds and do considerable damage before they are noticed, according to Circular No. 77, published by the Extension Division of the State College of Agriculture at Lexington. The pests may be destroyed by the spraying thoroughly with arsenate of lead or dusting powdered arsenate of lead over the plants. Paris Green should not be used as it will injure the plants.

CLEAN-UP FURNITURE SALE

We have found in the many years that we have been in the furniture business that it is necessary occasionally, in order to make room for stock, to put on a REAL CLEAN UP SALE

THIS WEEK ONLY

It is hard to guess at just what the buying public will do. Many customers will pick one piece from a suite while others will possibly take two, and this will leave the other pieces on our hands and in this manner we will, in the course of a few months, get quite a supply of what we term odds and ends. Every piece is first-class in every particular. Many are special order pieces that for one reason or another have been refused by the customer. If you need a chair, a bed, a dresser, dressing table, buffet, chiffonier, chifforobe, or in fact nearly any piece of furniture used in the home, here is your opportunity to select just what furniture you need, be it little or much and at a most amazing saving in price.

The buying public in this section of the state is familiar with the character of furniture, rugs and house furnishings sold by us for more than a quarter of a century and we feel all that is necessary for us to say is that every article offered will be found to be just as we represent it to be.

We cordially invite the ladies to inspect our rug department, confident that this splendid display will meet with their approval as we are selling same at less than they can now be bought for at the factory. The biggest line in the city to select from.

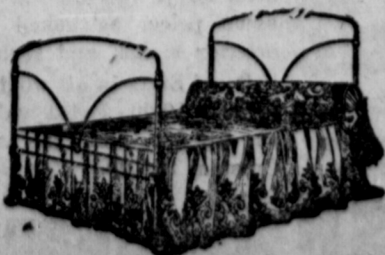

We urge our friends not to delay in coming to the store but just as soon after reading this advertisement as you can, come to the store and make your selections.

The time is limited, the opportunity is NOW. The old adage "A dollar saved is a dollar made" is a true one. This sale presents the opportunity for saving if you will embrace it.

TO VOTERS OF MONTGOMERY COUNTY: We take this method of expressing our appreciation of the work of commendation and approval of our efforts as County Commissioners for the past three and one-half years, contained in the petition submitted to us, and published in our county paper last week, and in which we are asked to again become candidates for Commissioners of the county. In compliance with the request of the petition we announce, subject to the action of the Democratic of Montgomery county at the next primary election, our candidacy for the office of Commissioners of Montgomery County, and promise, if nominated and elected, to continue, in the future, as we have in the past, to give the county our best efforts for a successful business administration.

Respectfully,
R. E. KERN, A. S. HART, DAN WELSH

COMING INTO THEIR OWN

Thirty-six newspaper publishers from various parts of the United States organized the Association of Open Shop Publishers of America in New York City to establish the principle of the open shop and maintain the freedom of the press. Already there are independents in the printing trade about there to one, and while they have yielded to the moths of the union for years and that without a word of comment they have come to that point where toleration is no longer a virtue and the "solid" epithet will no longer be endured. The independent publishers and the independent printer will join hands, making an irresistible continuous force and when the organization has become national labor will have a voice according to existing capacity. Only this is just.

DOGS ARE PROPERTY

Cases have gone before the highest state courts and decisions have been rendered in these cases declaring dogs to be property and the person or persons injuring or destroying this property is accountable to the law just the same as if it were other property upon which taxes had been paid. We do not believe that there are many who would willfully violate this or other laws, but that there are some who do in evidence by the fact that someone has scattered poison in the city and dogs have gotten it and died. A reward is offered in this case for the violator of the law referred to above and should the person thus disregarding the law be brought before the court and convicted they will certainly be made to pay the penalty.

WANTED FOR RE-ELECTION

It is seldom that we know of the position seeking the man, but in this county the people are making demands because they are wanting men who will give them their money's worth. A petition has been circulated asking the three incumbents, R. E. Kern, Dan Welch and A. S. Hart, of the County Commissioners, to become candidates for re-election. This petition is a high compliment to these gentlemen and the commendations for work accomplished in every way deserving. These gentlemen have been tried and proved themselves equal to the duties of the position, and we are glad they have yielded to the demands of the many and will continue to render service at this, a very practical period, in the history of the county.

GETTING TOGETHER

The tobacco growers of Kentucky are showing progressive earnestness in their agreement to put their product on a modern marketing basis. The spirit of accord shown at the meeting Saturday at Paris is favor of organizing under the California plan is gratifying. It presages the arrival of the time when tobacco growing in Kentucky will cease to be a speculative venture. The support shown by the American Farm Bureau Federation means that Kentucky will have the benefit of the aid of an expert organization of great strength, valuable experience and wide scope.

The world wants Kentucky tobacco. The demand is better than the production of the best black and white types. The tobacco manufacturers are prepared to pay good prices for the raw product. They are well able to pay as much as the grower can get for it, for they get good prices for what they sell.

When tobacco marketing is put upon a sound basis, the farmers of Kentucky will realize that they are not selling in the wilderness of an unorganized effort. They will have both an organization and the years wasted in trying when they might have been made with in half the time. The state needs the full value of every product of its fields and farms and forests. This value can be obtained by going to market with price-marked goods, properly graded.

Competition among farmers is the last remnant of a system that business has discarded. Co-operative marketing will stop anti-trust buying and selling. The day of the fair price for Kentucky farm products is dawning. And Kentucky farmers seem to be up with the dawn.—Louisville Times.

A STATEMENT WORTH CONSIDERING

How many slaves are slaughtered annually in Kentucky we do not know, but we are of the opinion that 200,000 would not be too great an estimate. One commission firm, not the largest, sold in twelve months in one city 10,000, and with this fact we can easily see how the best market is unimproved. This wholesale slaughtering of slaves should be either curtailed or entirely cut out. This question should be seriously considered by the 1922 Legislature.

Women to Take Part in Road Meeting

For the first time women will participate in a good roads convention in Kentucky June 7-10. The executive committee of the Kentucky Road Engineers' Association, arranging for the road meeting to be held in the Jefferson County Armory, Louisville, decided that since women are taking interest in public affairs and have been given the vote, they should be allowed opportunity to participate in the sessions.

It is expected that some of the most enthusiastic road advocates will develop among the fairer sex, not only are they being urged to attend but women speakers will be included on the program.

Gov. Edwin P. Morrow will be asked to issue a proclamation officially designating the week as Good Roads Week in Kentucky, and calling upon the people to participate in the road congress. Every county is urged to be well represented. County judges, engineers and fiscal courts have been invited.

In addition to Governor Morrow, Joseph S. Boggs, Highway Engineer, and members of the State Highway Commission, who have accepted invitations to deliver addresses, some of the most noted road experts of the nation have been engaged to speak. The exhibit of modern construction and maintenance equipment and motor trucks, in connection with the convention, will be

Circus Man Dead

John F. Robinson, retired circus owner, died at his winter home at Miami, Fla., Saturday of chronic bronchitis. He was 77 years old.

The body was sent Sunday to Cincinnati, where the funeral services will be held.

Mr. Robinson was born November 24, 1845, in Linden, Minn., scarcely 200 yards from his father's slaughter. At the age of 18 months he entered the sawdust ring on a career as a performer which ultimately made him one of the largest circus owners in the world.

At 18 years of age he had accumulated enough, with the aid of his father, to start on the road with a circus of his own. It expanded until after the Civil War, when it became cumbersome to transport about the country in wagons and Mr. Robinson conceived the idea of carrying it by train. It was the first time a circus had traveled by railroad. During the Civil War Mr. Robinson was an officer in the Union Navy. He spent much time and money in the years that followed in rehabilitating the devastated sections of the South.

A FIVE-POUND BASS

The fact that a five-pound bass had been landed started many who have the sport of the reel and rod toward the credits and ponds. This five-pounder has been fished for for several years and the catch certainly started the bass fishing. It is said, "Oh, Miss" under the excitement circulated conference. "You did catch it, I have worked hard and continuously for you, and now I will pull your bones, you old scamp." This five-pounder was caught with artificial bait and the merchants are busy waiting on the anglers.

China Famine Week

Throughout Kentucky, May 1st to May 31st will be observed as China Famine Week, the seven days being designated by churches, laymen and those interested in missions and the work of saving lives, as seven days of sacrifice to help the 40,000,000 inhabitants of the famine area in North Central China.

This announcement was issued by the Rev. P. E. Hill, chairman of the Church Committee of the China Famine Fund, with headquarters in Louisville, the Rev. Dr. E. Y. Mullins being chairman of the fund.

Speed in collecting money for the Chinese is urged in an appeal from Charles R. Crane, American Minister at Peking, who declares the granaries in Manchuria, from which the China Famine Fund Committee is getting its supplies for the famine-stricken people, will be cut off as a food source by the bubonic plague by June 1st. Ten days after money is contributed in America, food purchased with it is on the way to the famine area, the funds being cabled to the committee in China and through the various relief organizations converted at once into grain and as soon as it arrives in the famine area by the backs of the Chinese coolies is distributed to the starving people.

The bubonic plague, which made its appearance several weeks ago in northern Manchuria, is now rapidly sweeping southward and threatens, soon, to cut off this source of food supply, and in order to purchase enough grain before this catastrophe overtakes the already stricken nation, Minister Crane urges every cent possible be pushed to the Relief Committee.

Joseph Burge, 9 Board of Trade Building, Louisville, is Treasurer of the Fund in Kentucky, and checks may be sent to him or deposited to his credit in any Kentucky bank.

CORRESPONDENCE

Camargo and Vicinity

Miss Edna Yocum has recovered from a very sudden and serious illness that alarmed her parents and friends.

Mrs. Kittie Anderson is quite sick at her home with her daughter, Mrs. F. W. Norris.

Brother Dawson filled his appointment at the Christian church Sunday morning and evening to an appreciative audience.

W. L. Ricketts sold to Thomas Fitzpatrick a nice bunch of fat hogs at 73¢ cents per hundred.

Mrs. Clemmie Pendleton, of Pleasantville, is visiting her sisters, Miss Pink Ricketts and Mrs. Emma Pendleton.

There is evidence of quite a bit of opposition to the road bond issue in the sections not served by pikes at present. Many thinking men consider the only hope for better roads for those living away from the main pikes is to have a permanent road as can be gotten for the main pikes, so that work may be done and sufficient material used to be of a real benefit to the crosspikes and dirt roads. Taxation decreases with the distance your property lies from the county seat, the further away the greater amount of good or bad service you are bound to receive from the roadway, so remove any prejudice you may hold toward those nearer to the city. Certainly you are getting a greater service for a less tax than your friends closer to the city.

Corn planting is being delayed by the frequent rains. Much land is not yet broken. Doubtless it will be many seasons before another as bountiful corn crop is produced. Better not waste the crop too freely.

A HIGH COMPLIMENT

Arthur Henry, Territorial Bottling representative of the Orange Crush Co., Chicago, Ill., was here during the past week and showed us a letter from his company to the Mt. Sterling Bottling Works, which said of all the bottling works in the territory of Mr. Henry, covering Indiana, Ohio, West Virginia and Kentucky the report from the chief chemist shows they are putting out a standard bottled drink and highly congratulating them on its superior quality. Mr. Henry told a representative of The Advocate that the manager of the Mt. Sterling Bottling Works, Mr. B. F. Kirkland, was giving to the trade a perfect orange, lemon and lime crush. This is most certainly a high compliment to the local people. This report from the Mt. Sterling works is the only one that passed as perfect.

The third act of "The Amazons," the Senior play, takes place in a modern gymnasium, and by constant practice the cast has become quite skilful in the use of vaulting poles, horizontal bars and dumb bells. To see Tweenways and de Grival come down the rope from the skylight above is worth the price of admission. Mr. Evans' acting in the Strollers' play, which was also coached by him, demonstrated his ability in dramatic lines and Mrs. Turner needs no word of praise to those who have seen previous productions coached by her.

Tom Coons won a medal for first place in a high jump, height, 5 foot 2 inches. The relay team was composed of Kirk, Benton, Coons and Davis, each of whom won a medal. Cecil Davis had the highest record of anybody at the meet.

PROMINENT VISITORS

Mrs. Sidney G. Clay, Miss Helen Hutchcraft, of Paris and Mrs. Norton, librarian, of the Transylvania University, Lexington, were week-end visitors of Mrs. R. G. Stoner, at Longwood. Mrs. Hutchcraft is the youngest sister of the late Lieutenant Hutchcraft, who died in action over seas only a few days prior to the armistice. Miss Norton has developed and catalogued our wonderful and valuable library of the old Transylvania, the first and oldest university or college west of the Alleghany Mountains.

Chenault & Orear, of Mt. Sterling, say:

The De Laval puts money in the bank

MONEY in the bank is the final test of any piece of farm equipment. It is especially true of a cream separator.

Butter-fat is the most valuable product of the farm. Twice a day, every day in the year, gravity skimming or a poorly constructed separator wastes this high-priced food.

A De Laval Cream Separator stops this loss of profit. It supplies the extra money that is needed for current expenses, improvements about the farm, or for the purchase of new stock.

More than 2,500,000 De Laval are in daily use throughout the world. These De Laval owners represent the most progressive and most prosperous farmers in every country and locality.

A De Laval Cream Separator will make your farm more profitable, too, and put money in the bank for you.

You can buy a De Laval on such terms that it will actually pay for itself while you are using it. Come in and talk it over.

Sooner or later you will buy a De Laval

"I began using Cardui," continues Mrs. Burnett. "After my first bottle, I slept better and ate better. I took four bottles. Now I'm well, feel just fine, eat and sleep, my skin is clear and I have gained and sure feel that Cardui is the best tonic ever made."

Thousands of other women have found Cardui just as Mrs. Burnett did. It should help you.

NOTICE OF SPECIAL ELECTION

Notice is hereby given that pursuant to an order of the Montgomery County Court in the matter of G. H. Strother and others on petition, entered March 21, 1921, a special election will be held in Montgomery County, Kentucky, on Saturday, May 28th, 1921, for the purpose of taking the sense of the legal voters of said county as to whether or not the Fiscal Court of said county shall, from time to time, issue and sell bonds of said county in the sum of Two Hundred and Fifty Thousand (\$250,000) Dollars for the purpose of building, constructing and reconstructing public roads and bridges with asphaltum, concrete, brick, stone block, macadam, gravel or other processes of equal merit, and at which election the proposition will be submitted in words and figures as follows, to-wit:

"Are you in favor of issuing Two Hundred and Fifty Thousand (\$250,000) Dollars in bonds for the purpose of building roads and bridges?"

Said election will be held at the regular voting places in each of the precincts of said county between the hours of 6 o'clock A. M., and 4 o'clock P. M.

Given under my hand as sheriff of Montgomery County, Kentucky, this 19th day of April, 1921.

JOHN G. ROBERTS,
Sheriff of Montgomery County,
Kentucky. (56-14)

It looks like the tariff is a local question when we see Texas Democrats voting for a duty on cotton and Louisville Democrats voting for a duty on rice.

This would be a nice world if we were all as well satisfied with others as we are with ourselves.

MERCHANT'S COLUMN

There never was a time when the small town retail dealer needed more real, scientific advertising and merchandising than right now. A year ago, when peak prices had been reached the retail merchant needed, more than anything else, more buying power. That is, he needed the ability to get the goods he bought. Many small town merchants advertised then more than they ever did before, simply because they could afford to—not because they had to.

But, with the sudden start toward declining prices the sellers' market was changed to a buyers' market almost over night and nowhere did this change affect business more than in the small town. Farmers, whose grain and produce prices were almost the first to fall, were naturally adverse to buying under those conditions to say nothing of the reluctance of all buyers on a falling market.

In most of our mid-west country towns the "Buyers' Strike" was sudden and complete. People patched their last winter's clothes, let the wind out of the auto tires, took the battery into the house and otherwise stopped spending money. EXCEPT WHEN THINGS WERE REALLY SOLD TO THEM. There never is a time when people won't buy things that are SOLD to them.

There is a very definite line between letting people buy things and selling things to them. Just simply the line between "keeping store" and being a merchant. And the men who were real merchants didn't let the "Buyers' Strike" worry them much. Of course, it affected business and few men could show a gain in January, 1921, over January, 1920, but the men who went earnestly to work to get rid of their high-priced goods and get back to a normal footing, where it would be possible to sell goods and make a profit did so and did so quickly by the simple expedient of INCREASED ADVERTISING.

But of course liquidating stocks didn't break the "Buyers' Strike." It only consisted in taking the loss and having the agony over with, and even the merchant who had the most success in getting rid of his surplus priced merchandise found that he had not permanently stimulated trade by any means, and that it was going to take harder work than it had taken for several years to keep his business up. Some merchants realized that more intensive advertising would pull them through the period of reaction—even if it didn't bring as great results as it might under more favorable conditions—yet it prevented a complete slump.

But it is mighty hard for one merchant in a town—advertising one line of goods, to pull any great increase of business to the town. It is something that must be done by the concerted effort of all the merchants, advertising all kinds of merchandise. And in times like the present it is absolutely necessary to give people real bargains sometimes—bargains that they will recognize as such. To do this merchants must co-operate. No one merchant can afford to give all the bargains. Nor do people all want the same kind of bargains. Some may want drygoods, some clothing, some shoes and some hardware. It's a good thing to hold lumber bargain sales sometimes—or anything that will give people a good

Snyder Dopes Out Baseball Winners

(By Dean Snyder)

Judging from the interest shown in those leagues that already have blown off the baseball lid, 1921, is to be the biggest year baseball has ever had.

Box office receipts in the majors are soaring to new high marks for early games. Thousands of bugs will soon be crowding out to watch the minors.

They'll be asking "Who'll cop?"

Basing my judgment on the best obtainable statistics from all parts of the country and on personal observation of many of these teams, I'm going to hazard an answer and dope the teams to win in their respective circuits. Here they are:

National League—New York.

American League—Cleveland.

American Association—Louisville.
New International League—Baltimore.

Pacific Coast League—San Francisco.

Texas League—Forth Worth.

Southern Association—Memphis.

Three-Eye League—Bloomington.

Eastern League—New Haven.

Western League—Tulsa.

Western Canada League—Calgary.

The New York Giants still look like the best club in the National League. The team is well balanced. The infield has a punch both on the field and at the bat. The outfield is stronger than last year. The pitching is the best in the league outside of Brooklyn. Runner-ups—Pittsburgh and Brooklyn.

Tris Speaker's Cleveland Indians appear to have their old punch back. They still fight their way from behind and win. The Alabama substitute, Riggs Stephenson, blooms like a genuine find. The pitchers haven't settled down yet. But they have in the man Speaker is the kind of a leader to get the best from them. Runner-ups—Yankees and St. Louis.

Louisville in the American Association seems likely to break St. Paul's string of pennants. The Colonels have practically the same team that finished second to the Saints last year. St. Paul has lost four star players in Goldie Rapp, Hargrave, Brazil and Coumbe. All the other clubs, with the exception of Kansas City, have lost strength. St. Paul and Toledo will give the Colonels the hardest fight.

Jack Dunn's Orioles in the New International League, looms as a cinch winner. The Orioles are practically a major league club, Dunn refused to bow to the draft. He likewise turned down an offer of \$150,000 for three stars. The same team has won two straight pennants. Other clubs sold their stars. The Orioles didn't. Buffalo should give the Orioles their hardest fight with Toledo next.

I'm picking San Francisco to win reason for coming some distance to trade in the town.

Some kind of co-operative sales event is doubtless the best kind of trade stimulant for a small town during a period of depression. But in holding these sales if it is possible to give people bargains in goods they know all about—things they know the value of—how much more interesting and attractive the sales

No city merchant would think of laying down on the job when there is a slump in business. His rent and other expenses would bankrupt him if he did. And the country merchant who fails to make an extra effort in advertising and salesmanship during the present depression is committing business suicide just as surely though perhaps not so quickly.

What the country merchant needs is co-operation with each other and with the manufacturers. Constructive sales plans and scientifically prepared advertising campaigns will do more to solve the problem of poor business than anything else, and by getting right down to business, working harder than ever.

the Coast League flag. Manager Graham seems to have added the necessary material to lift his club from a fourth-place outfit of last year to the top. He has added Ellison, Rath and O'Doul from the majors and Kelly from the Association. Already the Seals have won a long string of consecutive victories since the season opened. The Los Angeles club is second choice. Sacramento should fight ernon for third place.

In the Texas League Forth Worth still holds the big palm, according to dope. The team is practically the same that beat Little Rock in the little World Series of the South last fall. Jackie Atz has tested pennant gravy. Every club has been strengthened, particularly Dallas, which will push Fort Worth to the wire.

The Memphis Chickies appear to be the best club out in the Southern Association. Spencer Abbott's bunch is young in years, but old in experience. The club has the fighting spirit. Little Rock has lost its chief stars, Tony Brottem, Bing Miller and Chief Yellowhorse.

Peoria and Moline will give Bloomington, winners in 1920, a battle this year. Bloomington seeks to make it three pennants in a row. Manager Joe Dunn has a bunch of big league castoffs to fit into holes left by players sold up. Peoria is the strongest contender right now, although Earl Mack's club at Moline has been strengthened by help from Connie's Athletics.

New Haven's Indians under Chief Bender have been strengthened to win another Eastern League pennant. Springfield and Bridgeport are probable contenders.

The fight in the Western Canada League will be between Calgary and

Regina. Manager Joe Devine of the Calgary team, has the backbone of his club that won last year to build around, which should be in his favor. Regina has shown a lot of speed in spring training and his pitching staff is strong.

EDUCATIONAL TOOTH TALK—47 Efficiency

Uncle Sam has said that in order to be a good soldier you must have good teeth. In fact, he has found that an army is exactly as good as the teeth of its individual elements—and no better. Why? BECAUSE no man can reach the height of efficiency demanded of the soldier in the field if he is handicapped by badly decayed teeth. Neither can you, in private life, reach the true heights of efficiency you are entitled to if your teeth are in such condition. A visit every six months to your dentist will help keep you in that high state of efficiency.—Dr. H. M. Wright, Traders Bank Building.

The coming men of the country are the men who are always on the go.

PRIZE SUBSCRIPTION CAMPAIGN

HOW TO START YOUR CAMPAIGN

1st—Send your nomination to the Campaign Manager and secure the supplies and instructions. Or better still, come to the office and let us assist you in getting started.

2nd—Request your friends to clip the 50-vote coupons, which appear in each issue of The Mt. Sterling Advocate and cast them in your favor. Votes may be deposited in the ballot box at this office or sent to the Campaign Department by mail.

3rd—Get your friends to pledge you their support. Ask them to subscribe or renew their subscriptions in your favor. Votes are given free on back subscriptions, renewals, and on new subscriptions.

Turn your spare time into profit by entering the big race today. A little spare time spent in pleasant efforts among your friends will bring you a valuable prize.

The Mt. Sterling Advocate is inaugurating a mammoth Prize Campaign in which everybody residing in this section is invited to take part—a legitimate voting campaign in which the personal efforts of those entered as candidates and their friends will decide their success.

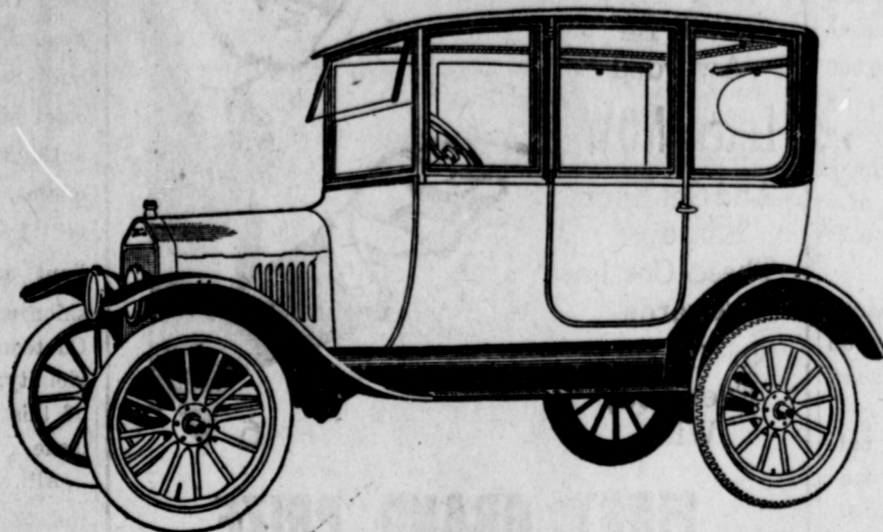

The premiums which have been chosen for this great campaign have been selected with special care, and management feels, in offering

these valuable awards to the popular and energetic people of this section that it is offering prizes well worth striving for. All these splendid premiums will be given away absolutely free in exchange for a little spare time in pleasant work among your friends in securing new subscriptions and renewals to the Mt. Sterling Advocate.

The method of nomination and voting; how prizes will be awarded, etc., are explained on this page. Read it over carefully and then enter your name or that of a friend at once. Do this today and get an early start in the big race. The premiums are worth many times the efforts required to secure them. The brief description given here will more than convince you of that. All the prizes are offered under the most liberal arrangements, so it is not at all hard to win one of them. Any person having a little ambition and energy and willing to devote a little of their spare time in the interests of this paper has a good opportunity to win.

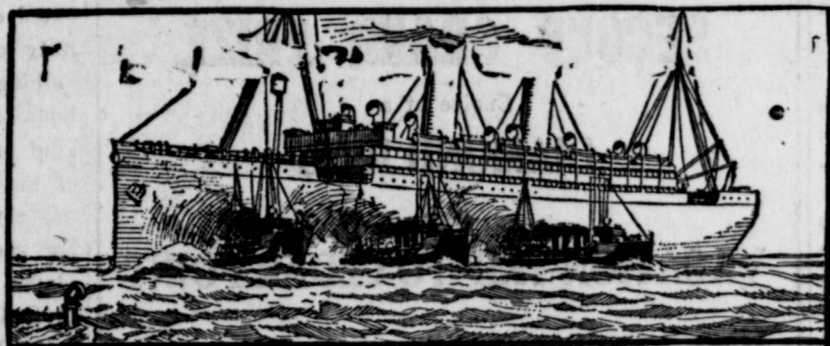

How Decided

The persons to share in the distribution of the prizes will be decided by popular vote of the people, and votes may be secured in different ways. First: In each issue of The Mt. Sterling Advocate there appears a coupon which is good for a certain number of votes for the can-

didate whose name appears thereon, providing it is deposited in the ballot box or mailed to the Campaign Manager before the date of expiration thereon. Second: The best and quickest way to secure votes is by getting your friends and acquaintances to subscribe to or renew their subscriptions to The Mt. Sterling Advocate. Votes are given free on renewals and new subscriptions as explained in another section of this announcement.

Votes are also given free on job printing when payment is made, on news items sent in by contestants, and on purchases made at several of the different stores in this section of the state. The names of the merchants offering votes on purchases at their stores will be published in The Mt. Sterling Advocate when the contest starts. Any merchant may make arrangements with The Mt. Sterling Advocate to offer votes on purchases at his store and if your favorite merchant is not shown in the list of those connected with the campaign, ask him to get the votes for you.

Votes are also given free on news items at the rate of 200 votes on each ten items which a candidate may turn in.

Information, Rules, Etc.

Any white man or woman, boy or girl, of good character, is eligible to compete for the prizes.

In case of a tie for any prize, a prize identical in all respects, will be given each candidate who ties for that prize.

The campaign manager reserves the right to reject any candidate and to pass final judgment on any question which may arise.

No paid employees of The Mt. Ster-

ling Advocate or any member of his or her immediate family will be permitted to participate as a candidate.

No promise or agreement, either written or verbal, made by solicitors, agents or representatives of The Mt. Sterling Advocate, other than those published in the paper, will be recognized.

Votes are positively not transferable. They can only be secured as announced in the paper.

A committee of unimpeachable public men will be chosen to judge the finish of the campaign. At the close of the campaign they will make a canvass of the votes and declare the winners. The decision of the board of judges will be final and will admit of no appeal.

No candidate will be permitted to win more than one prize. For instance the winners of the grand prizes will not be eligible for the district prizes.

A ballot box has been placed in the office of The Mt. Sterling Advocate, where nominations and votes may be deposited or they may be mailed direct to the campaign manager.

Candidates and their friends are not restricted in securing votes and subscriptions to any particular district. They may be secured anywhere.

It does not cost anything to enter or try for any of the prizes and it does not cost the subscriber anything extra to vote.

The campaign starts May 3, and closes Monday, July 25th.

A subscription will not be counted as new if it is merely changed from one member of the family or household to another.

Until further notice, no contestant will be permitted to poll more than

a sufficient number of votes to place their standing 10,000 votes in advance of the leader of the preceding issue.

The right is reserved to reject any proposed candidate and to alter these rules and regulations should the occasion demand.

Nominations should be made as early as possible, as an early start means much to a candidate. Enter your name or that of a friend.

The rules and conditions given here are to govern the campaign and all persons entering the race agree to be governed as here set forth.

If there is any point about the campaign that is not fully understood do not be afraid to ask questions. The Campaign Manager will be glad to explain the details of the campaign and assist the candidates in getting started.

Candidates will find that the hardest part of a campaign of this kind is to get started, but after you do, and your friends learn that you intend to make an active race for the prizes, you will find that you will have little trouble in securing a great many votes and subscriptions. The campaign will not interfere with your employment or home life. In fact, if you wish, you may conduct your whole campaign by mail and we will furnish you letters already printed for this purpose.

The office of the Campaign Manager will be at The Mt. Sterling Advocate, and contestants and their friends are invited to call and learn further details of the big race. The manager will be available at all times

HOW TO ENTER THE CAMPAIGN

All that is necessary to do to enter the big competition is to fill out the nomination blank found in this announcement, and bring or send to the Campaign Manager, care Mt. Sterling Advocate. Supplies and full instructions will then be sent the prospective candidate.

Fair to All

The management, at the outset, pledges absolute good faith and fairness to all the popular and energetic people who will soon become engaged in the big prize race. Every person entering has an equal opportunity to win. Votes cannot be bought—they must be secured as announced in the paper. Fair impartial treatment given every candidate—come in, talk it over and let us help you get started.

During all of the first and second periods and part of the third, triple votes will be given on both old and new subscriptions and during the balance of third period and part of the fourth Double Votes will be given on all subscriptions. Votes will also be given on news items at the rate of 200 votes for each ten news items turned in by a candidate.

Votes on Purchases

A number of merchants in this section of the state will give votes in The Mt. Sterling Advocate campaign on purchases of 10 cents or more made at their stores. Ten votes will be given on each 10c purchase or at the rate of one vote for each cent above 10c in multiples of ten. A list of merchants offering votes on purchases will be published in The Advocate at the start of the campaign and each issue thereafter.

The above is a complete schedule during the entire campaign.

Division of Districts

For the purpose of giving each candidate a better opportunity to win, the territory of the campaign has been divided into two districts, and an equal number of district prizes will be awarded to each district. The districts have been divided as follows:

District No. 1—Includes the City of Mt. Sterling.

District No. 2—Includes the territory outside of the City of Mt. Sterling.

For the district prizes candidates need only compete against those in their own district.

Should it be found that the districts can be more evenly divided the Campaign Manager reserves the right to make the change.

The Ford Sedan

The candidate securing the greatest number of votes during the campaign is given his or her choice of a Ford Sedan or a Trip to Europe.

The Ford Car is so well known to the people of this section that it is hardly necessary to go into details regarding the merits of this car. The car offered in this campaign is a Ford Sedan and is valued at \$875, and will be purchased from Strother Motors Co., the local agents.

The Ford is a car of all-around utility from every angle of human wants. For pleasure, for business, it is the one car that has proven serviceable, durable and economical. It is universally recognized as a car of maximum service and minimum upkeep cost. They are so simple, yet absolutely scientific in design that any person can learn to run one in a few minutes' time.

The Trip to Europe

The itinerary of the Vacation Tour to Europe offered in this big prize race is very attractive and offers much variety of interest to the tourist. The countries to be visited are France, Belgium, Holland, England and Scotland. This includes the chief historic cities, the treasures of antiquity and art, places where quaint, old world things and ways still linger, scenic routes and brilliant centers of pleasure and fashion and the famous battlefields of Chateau-Thierry, Belleau Wood and vicinity. A more complete itinerary of this trip will be given in a later issue.

All expenses as provided for in the tourist company's itinerary of this trip such as steamship passage and berth, hotel expenses, railroad fare and sight-seeing tours, will be paid by this paper, as well as railroad fare to New York and return from Montreal.

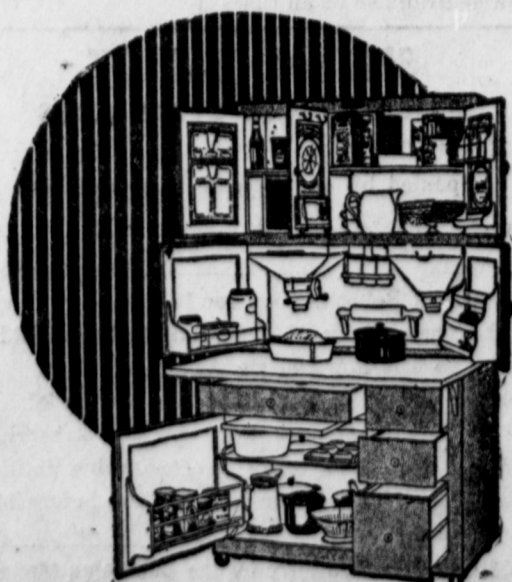

The Trip to Cedar Point

"Cedar Point" on Lake Erie, has been rightfully named "The Atlantic City of the West," for a more delightful place to spend a summer vacation could hardly be found. Located on Lake Erie it offers a variety of outdoor sports such as bathing, boating and fishing and entertainments of practically every kind such as will be found in one of the greatest amusement parks in this country. The trip offered in this big race is for one week and includes railroad and Pullman fare to Cedar Point and return as well as \$10 a day for hotel expenses, meals, etc.

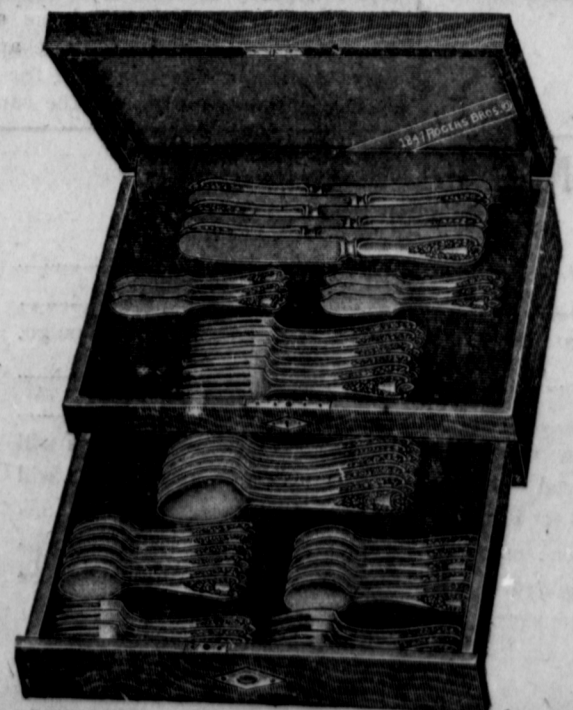

THE CASH PRIZES

One particularly good feature about this great campaign which will meet with the approval of all candidates is that there will be no losers. If you fail to win one of the regular prizes, we will pay you 10 per cent cash commission on the gross amount of newspaper subscription money which you collect, providing you turn in one or more new subscriptions each week from the time you start to work in the campaign. The campaign works both ways—a profit-sharing circulation building campaign or a good paying job. If you want an automobile or one of the other splendid prizes we offer, then enter your name at once. Special Registration

Notice is hereby given that, pursuant to an order of the Montgomery County Court in the matter of G. H. Strother and others on petition entered March 21, 1921, a special registration will be held in each precinct in the city of Mt. Sterling, Ky., on Saturday, May 21, 1921, for the registration of persons entitled to vote at a special election to be held in Montgomery County, Ky., on Saturday, May 28, 1921, whose names have not been recorded on the registration books of said city for the present year. Said special election will be held for the purpose of taking the sense of the legal voters of said county as to whether or not the Fiscal Court of said county shall, from time to time, issue and sell bonds of said county in the sum of Two Hundred and Fifty Thousand (\$250,000.00) dollars for the purpose of building, constructing and re-constructing public roads and bridges with asphaltum, concrete, brick, stone block, macadam, gravel or other processes of equal merit, and at which election the

proposition will be submitted in words and figures as follows, to-wit:

"Are you in favor of issuing Two Hundred Fifty Thousand (\$250,000.00) dollars in bonds for the purpose of building roads and bridges?"

Said registration will be held between the hours of 6 o'clock A. M., and 9 o'clock P. M., at the regular voting places in each of the precincts of said city.

Given under my hand as Sheriff of Montgomery County, Kentucky, this 18th day of April, 1921.

God made the country and man put a wire fence around it to keep his brother off.

Endorsement of the American Legion's program for relief to disabled, which was adopted by the investigating committee, named by President Harding, was voted at the regular session of the Maine legislature. A memorial resolution was passed requesting Congress to adopt the Legion's legislative recommendations.

After it was announced that there were 3,000 former service men in Los Angeles, Cal., out of work and that an average of 500 men apply for employment to the American Legion headquarters there daily, the Merchants and Manufacturers' Association of that city decided that it was time to act. A campaign of relief has been started and the funds will be administered by the chairman of the American Legion Interpost Council.

Three to one is the score of the legislative program of the American Legion in Iowa. The following Legion measures passed: Bonus Bill, providing fifty cents a day, with a maximum of 350, to be voted upon at the general election in November, 1922; Tax exemption of \$500 for veterans of World War, \$1,800 for Spanish-American War veterans, and \$3,000 for those who fought in the Civil War and veterans' preference on all political appointments, state, county, city and schools, for both World War and Spanish-American War fighters. A legion boxing bill was passed in the House, but was defeated in the Senate of the Iowa legislative body.

George Sylvester Viereck's boast that he can control 1,000,000 votes in the interest of Germany has been denied by letters from twelve leading citizens of Teutonic extraction in Louisville, Ky., to the Jefferson Post of the American Legion in that city. The letters, together with a resolution condemning Viereck as an advocate of un-American principles, have been made public by the Post.

Louisville Legionnaires will hold an All-American meeting on Decoration Day, May 30.

When the fire department dashed down the main street and red flares burned brightly in the stillness of the night the solid citizens of Appleton, Wis., rushed out of their homes in alarm. What they discovered was that the local post of the American Legion was starting its membership campaign. Bands began to play and illuminated floats appeared. Boy Scouts marched in a parade with the Legion members. The effect of the night attack was so strong that 600 members were obtained the next day.

Although he was arrested and convicted of a misdemeanor, a twenty-year-old wounded veteran of the World War is to receive through the offices of the American Legion of Detroit, Mich., an education as an electrical engineer. The boy had enlisted at the age of seventeen and was twice wounded during the St. Mihiel drive. He had always wanted an education, he told the judge, but was compelled to leave school when he was six years old because of the separation of his parents. The judge placed him on probation to a representative of the Legion, who is arranging for the youth to enroll in an engineering course under the government provisions for vocational training of wounded veterans.

When the government salvage depot employment office at Toledo, O., failed to employ a reasonable number of ex-service men, the Lucas County Council of the American Legion investigated the situation and obtained a promise of adjustment from the captain in charge of the depot. The Legion's investigation showed that, out of 261 employed, 97 were ex-service men, 50 were ineligible at the time of war, and 114 had never been in the service.

A French "Medal Commemorative of the World War" awaits Americans and French citizens who went to France to serve with the horizon blues during the period of hostilities, according to a letter to National Headquarters of the American Legion from Brigadier General L. Colardet, French military attaché at Washington. He requests that persons eligible for the decoration apply to the French Embassy at the National Capitol.

The Bronx County, N. Y., American Legion will on Memorial Day dedicate a tree to each of the 760 Bronx men and women who made the supreme sacrifice. Around each of the lindens on Grand Concourse the City of New York will place an iron guard. To this will be affixed a bronze plate, conceived by the Bronx

Legion and paid for by its members.

Opposition to the proposed emigration of several thousand Menomites from Canada to Mississippi, which the American Legion has registered, is backed up in a resolution passed by the Punxsutawney, Pa., Lodge No. 669, International Association of Machinists, affiliated with the American Federation of Labor, which characterizes the sect as "unpatriotic and a menace to the United States government."

GOOD TOBACCO WILL BE WANTED

In order to induce the people to use V.-C. Fertilizer and make fine tobacco, the V.-C. Co., the largest fertilizer company in the world, has just made a big reduction in prices, and I can now sell you our V.-C. Gem Tobacco Grower at \$38.50 per ton, F. O. B. Lexington and \$2.60 per bag for our V.-C. Plant Food.

Another common crop of tobacco would certainly bring ruin to the tobacco growers and to the tobacco trade, while a medium size crop of good, bright tobacco will be needed, and will no doubt bring good paying prices. 200 pounds of our Gem Tobacco Grower drilled in, or by the side of the row, gives your tobacco a start and ripens it up with good color two weeks sooner, and only costs \$3.85 an acre; or three bags, 375 pounds drilled in all over the ground, will make you a fine tobacco crop and also make you a fine wheat or rye and grass crop following it. Either one of these crops will more than pay for the fertilizer. See that your plants are not killed.

A party that used three bags in this way made 13,875 pounds on ten acres and sold it for \$40.14 average this season.

A little of our Plant Food sowed over the bed and after they come up, and wished in, will give you plants two weeks sooner.

Two bags will double the yield of one acre of potatoes.

Terms this year are positively cash.

U. S. Bureau of Markets

Hay—Market slow and draggy. Increased receipts at Chicago and Cincinnati, prices lower except for No. 1 timothy, which holds fairly steady. New York and Minneapolis markets firm, due to light receipts. Country loading light. April 27 quotations: No. 1 timothy, New York, \$31.50; Philadelphia, \$23.50; Chicago, \$22; Minneapolis, \$20; Atlanta, \$30; No. 1 alfalfa, Chicago, \$23; Kansas City, \$22.25; Atlanta, \$33; No. 1 prairie Chicago, \$18; Minneapolis, \$17; Kansas City, \$15.

Grain—Although prices advanced the first half of the week on brisk export demand and light country offerings the gains were more than lost on the 25th when sentiment turned bearish. There was a temporary advance on the 27th, but political situation abroad caused a further slump. On the 28th there was a brisk export wheat demand; Kansas City and Omaha reported best milling and export demand for some time. Kansas wheat stocks April 16 officially estimated 26,000,000 bushels, 5,000,000 bushels more than a year ago. Domestic and foreign crop reports favorable. Liquidation on in corn; bearish construction placed on Kansas estimate showing 63,000,000 bushels corn on farms April 16 compared with 10,000,000 bushels year ago. Export demand for corn slow. In Chicago cash market No. 2 red winter wheat, \$1.37; No. 2 hard, \$1.40; No. 3 mixed corn, 57c. No. 3 yellow corn, 57c; No. 3 white oats, 36c. For the week Chicago May wheat down quarter cent at \$1.27 1-8; May corn, 57 5-8. Minneapolis wheat down 1 1-4c, at \$1.19; Kansas City May unchanged \$1.19. Winnipeg May down 2 1-4c, at \$1.57 1-8.

Livestock and Meats—Chicago hog prices advanced 10c@15c per 100 lbs the past week, better weights advancing most. Beef and butcher cattle generally 25c lower; some cows off 75c. Veal calves up 50c@1. Heavy lambs up 50c, lighter weights down 15c. Feeding lambs gained 25c@50c. Yearlings and fat ewes unchanged. April 28 Chicago prices: Hogs, bulk of sales, \$8.10@8.50; medium and good beef steers, \$7.25@8.60; butcher cows and heifers, \$4.75@8.75; feeder steers, \$6.50@8; light and medium weight veal calves, \$7.50@9.75; fat lambs, \$9@11.10; feeding lambs, \$7@8.50; yearlings, \$8@9.50; fat ewes, \$5.50@7.25.

Stocks and feeder shipments from 11 important markets during the week ending April 22 were: cattle and calves, 37,716; hogs, 6,479; sheep, 3,360.

With the exception of lamb and veal eastern wholesale fresh meat prices declined the past week. Beef, 50c lower, pork loins and mutton steady to \$1 lower; lamb and veal steady to \$1 higher. April 28 prices for good grade meats: Beef, \$16.50@17.50; veal, \$18@20; lamb, \$20@23; mutton, \$15@16; light pork loins, \$25@28; heavy loins, \$17@22.

Diamond Ring, Chests of Silverware, Elgin Watches, purchased from Bryan & Robinson, offered free in the prize race.

PRODUCE REVIEW

Receipts of fresh eggs in the larger markets continue on a liberal basis, resulting in lower prices, which have been followed by a reduction of prices paid in producing territories.

Butter quotations are generally lower. This condition also has been reflected in paying prices for butterfat throughout the country. Receipts of butter in Chicago, New York, Boston and Philadelphia are much heavier than a year ago. The United States Department of Agriculture in its report of April 28, shows the following receipts since January 1, in these four cities: 1921—1,621,070 tubs; 1920—1,479,282 tubs.

Estimated at 60 pounds each, this will give a total increase in receipts of 8,507,280 pounds.

Live poultry prices have declined, due to lighter demand and much heavier receipts.

Have you been wishing for a diamond ring? There's one offered free in the big prize race.
